

コイル捲線機 Toroidal coil winders

捲線作業の省力化を通じて、あらゆる電子製品のノイズ防止に貢献。

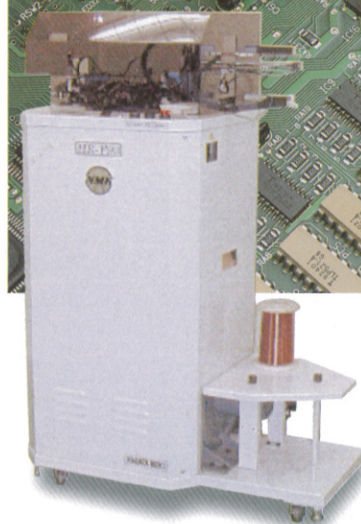

フック式では、世界初の全自動トロイダル捲線を開発。人手での難易度の高い長寸もの、極細ものを高品質で巻き上げます。高稼働率を誇る21世紀の省力化に貢献します。

For noise protection in various electronics products through labour saving wiring

Nagata Seiki is the first developer in the world for toroidal coil winder with hook. Coil winders are good for long length wire and/or ultra fine coils that are much too difficult to wind by hand. These winders contribute to higher efficiency and labour saving in 21st century.

中線捲線機HR-M170/270
Medium fine coil winder HR-M170/270

細線捲線機HR-F93
Fine coil winders HR-F93

細線小径捲線機HR-S32
Superfine coil winder HR-S32

混練機 Centrifugal Mixer

混練作業の自動化を通じて、多様な業界の作業効率向上に貢献。

Contributes to high efficiency in various fields with automated mixing, kneading, degassing process

主な用途

- そば/うどん/パスタ/和菓子をはじめとする食品粉練り
- フルーツなどの果肉と果汁の分離
- 塗料/セメントをはじめとする工業用粉末練り・脱泡

Main applications

- Kneading for noodles and any kind of pasta.
- Food processing for Fruits, Vegetables etc.
- Kneading and degassing of industrial powders as paints/cements

自動ネジ供給機 (クイッチャー) Automatic Screws Feeders

複数サイズのネジの自動供給により、生産現場の作業効率向上を実現。

Realize the high efficiency at production sites with automatic multi-sizes of screws feeders.
